

Appworx Scheduled Job (Module) Request Form

This form is to be filled out for a singular appworx job (module). If this module is to be used in conjunction with other modules in a chain, a separate form must be completed for each module in the proposed chain. Chain details need only be included on one of the inclusive module request forms. All inclusive module requests for a chain should be collected together to be presented to the ITS implementer.

This form should be filled out by someone in the requesting functional area in conjunction with a member of the ITS staff assigned to work with Apworx (BARS Group member or designated Appworx functional area programmer). This form should be reviewed and signed by the functional area Coordinator. If this module is part of a chain, the form with the chain information need only be signed.

Requestor: _____ Request Date: _____ Requestor Phone: _____

ITS Programming Contact: _____ ITS Contact Phone: _____

Job Functional Area: _____ Area Coordinator: _____

Database Instance (pre-production): _____ Job Name: _____

Name and userid: _____
Need: _____

Special Requirements:

Use this section to detail any special checking or job functionality such as email or error checking. If a special requirement involves the creation of a separate module, fill out a separate Module request form (this form). If the special requirement can use an existing module, name it here. In either case, on the chain details include the special module in the correct order.

Is this job to be part of a chain?

If so, attach this module request form to all other request forms that are to be part of a chain. On one of the request forms detail the chain requirements below. You only need enter this info on one of these forms. If this is a singular module sign off here.
